NuPathways	NuExperience	NuResults
Programs based on IT employment demands.	Continuous engagement through Active Learning Rotations™.	IT skills, certifications, education credits.

PATHWAY OPTIONS

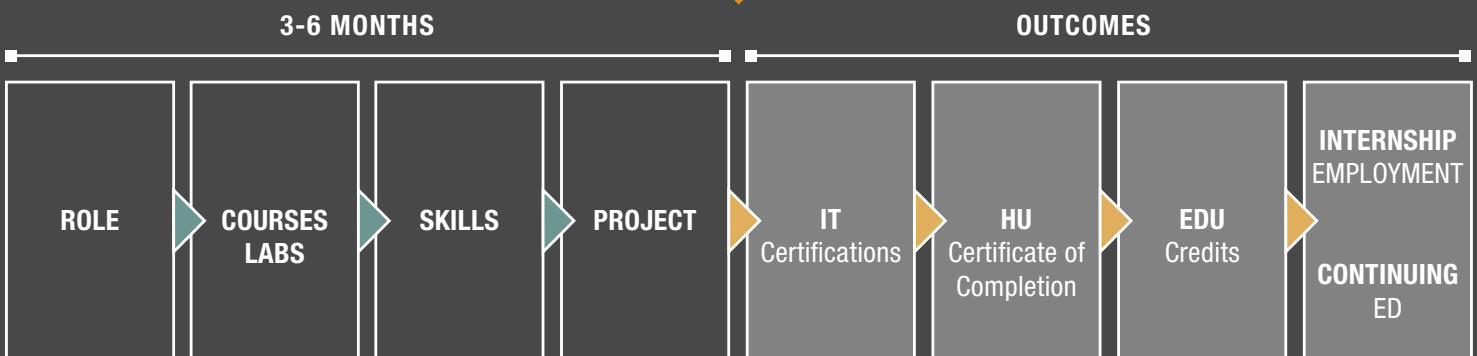

Tech Support | Provide technical support, advice, and assistance to consumers and businesses by installing, maintaining, and troubleshooting computer hardware and software assets.

Cyber Security | Prevent unauthorized access, use, disclosure, disruption, modification, inspection, recording or destruction of digital information.

Software Testing | Testing is an enablement service to validate and verify application development quality and system performance prior to the production roll out of applications.

Digital Marketing | Use Internet and mobile platforms to market products and services.

Productivity | Coordinate resources to optimize key processes and increase value for improved stakeholder and organization outcomes.

Our Mission | Prepares you to perform specific entry-level roles in Information Technology (IT) for well paying and in-demand jobs.

“At IBM alone, they intend to hire about 25,000 professionals in the next four years in the United States. Due to the evolving nature of technology, many of these IBM jobs do not require a four-year degree, and will be filled by people with a diverse range of backgrounds and qualifications.”

– U.S. Chamber of Commerce Foundation
